

# **Thank you...to our COVID- 19 Front Line workers...**

These are especially difficult and for many, sad times especially for those that have tragically lost loved ones. Today saw the re-opening of our church and many businesses in accordance with the guidelines – which are there to protect all of us. So a heartfelt and sincere thank you to all of our wonderful Front Line workers, their families , friends, Departments, Agencies, Organisations, Services, the Media, all who helped in however they could no matter how small, and also to our parishioners and teams of volunteers in the community and here in our church. Thank you so much to all of you...now we must continue to be vigilant.
